### MEMORANDUM

**TO:** Board of Directors

**FROM:** Scott Duffield, General Manager  
Kristen Gelos, Office Supervisor

**DATE:** September 16, 2021

**SUBJECT:** Submittal for approval Resolution 21-10 fixing the employer contribution at an equal amount for employees and annuitants under the Public Employees' Medical and Hospital Care Act.

#### **Recommendation**

It is recommended that the Board of Directors approve Resolution 21-10 fixing the employer contribution at an equal amount for employees and annuitants under the Public Employees' Medical and Hospital Care Act.

#### **Background**

The District entered into agreement with CalPERS for medical coverage in 1992. The Resolution stipulates the District will contribute the total amount of insurance premiums for employees and retirees and their dependents.

In 2002, the Board adopted Resolution 02-13 setting health benefits vesting requirements for future retirees. The vesting applies to all employees hired on or after January 2003 and requires the retiree to have worked at least twenty years under the CalPERS system including at least five with the District and limited the employer's contribution to the average cost of CalPERS' various plans.

In 2006, the Board adopted Resolution 06-04 establishing health plans the District will fund for future retirees. The intent of this Resolution is to limit liability to the least expensive HMO or PPO.

In 2010, the Board adopted Resolution 10-01 establishing health plans the District will fund for employees and annuitants. The intent of this Resolution was to limit liability to the least expensive HMO or PPO.

In 2016, the Board adopted Resolution 16-10 fixing the employer contribution at an equal amount for employees and annuitants under the Public Employees' Medical and Hospital Care Act.

**Discussion**

The District needs to provide an amended resolution to CalPERS every year indicating the specified health plan(s) the District covers for employees and annuitants under the Public Employees’ Medical and Hospital Care Act. The health plans for calendar year 2022 to be covered by the District pursuant to District policy are shown in the table below.

<b>2022</b>	
<b>Members</b>	<b>Health Plan Region 2</b>
Basic Enrollments	PERS Gold
Medicare Enrollments	UnitedHealthcare
Combination Enrollments	PERS Gold

**Fiscal Considerations**

The FY 2021/22 Budget includes health coverage costs.

**Results**

Approval of Resolution 21-10 will provide CalPERS with the documentation required to maintain District provided health coverage.

If it is determined that Heritage Ranch Community Services District would not qualify as an agency or instrumentality of the State of political subdivision of a State under such final Regulations, CalPERS may be obligated, and reserves the right to terminate the health coverage of all participants of the employer.

## MEMORANDUM

**TO:** Board of Directors

**FROM:** Scott Duffield, General Manager

**DATE:** September 16, 2021

**SUBJECT:** Submittal for approval Resolution 21-11 declaring certain items to be surplus property and authorizing disposal.

### **Recommendation**

It is recommended that the Board of Directors approve Resolution 21-11 declaring certain items to be surplus property and authorizing disposal.

### **Background**

It is the practice of the Board to declare surplus property on an as needed basis.

### **Discussion**

Surplus property that has been purchased with public funds, donated to the District, or acquired or owned by the District through other means, is the property of the District and does not belong to individuals, including but not limited to District employees, retirees, and members of the Board of Directors. No individual may personally benefit from the disposition of surplus property or dispose of it in a manner which could result in or give rise to an actual or perceived conflict of interest.

The District will dispose of the surplus property in a manner that is transparent, fiscally responsible, reduces harmful environmental impacts, promotes a reduce-reuse-recycle philosophy, and is in accordance with all applicable local, state, and federal regulations.

The Manager may sell or dispose of surplus property by the following means:

- Sale or donation of the items to another government agency or charity.
- Sale of the items to the highest bidder at a public auction.
- Sale of the items without public bidding to any eligible party paying a fair price.
- Disposal of the items by any other lawful means if the manager determines that the item has no redeemable value.

## **Fiscal Considerations**

Revenue, if any, generated from the disposition of surplus property will be recorded as miscellaneous revenue and will be reported to your Board.

## **Results**

Approval of the recommended action will result in staff advertising surplus property for sale or disposing of surplus property by means deemed appropriate by the General Manager, leading to fiscally responsible and transparent management of the District.

### MEMORANDUM

**TO:** Board of Directors

**FROM:** Scott Duffield, General Manager  
Mike Wilcox, Operations Manager

**DATE:** September 16, 2021

**SUBJECT:** Request to approve media replacement and other maintenance items on the four filters at the Jim McWilliams Water Treatment Plant (WTP) at an estimated cost of \$200,000 and authorize a corresponding budget adjustment from reserves.

#### **Recommendation**

It is recommended that the Board of Directors

1. Approve media replacement and other maintenance items on the four filters at the Jim McWilliams Water Treatment Plant (WTP) at an estimated cost of \$200,000; and
2. Authorize a corresponding budget adjustment from reserves.

#### **Background**

The District's purchasing policy requires Board approval of any requisition for capital items in excess of \$1,000.

#### **Discussion**

The purpose of media replacement and other maintenance items on the four filters (filter renovation project) is to return the media filters to the operable functionality that existed when these filters were first commissioned in 1993. In 1993, the Roberts media filters were state of the art technology for water filtration. Although technology has progressed rapidly, the fundamentals of water production/filtration have not. The basic objective of water treatment plants is to produce a drinking water that is safe and aesthetically pleasing at a reasonable cost with respect to capital as well as operation and maintenance.

The technologies of Human Machine Interface (HMI) and Supervisory Control and Data Acquisition (SCADA), i.e. how a water treatment plant is controlled, how treatment is documented for regulatory compliance, how a plant operates within the highest level of

energy and chemical conservation, and how an Operator interfaces with the treatment plant are different discussions.

The filters at the WTP been in service for nearly 30 years with little to no major maintenance. This project would bring them back to the originally intended standard of operation and functionality while reducing the quantity of wasted water and chemicals due to excessive rinse and backwash cycles.

The filters need to be renovated not replaced. The need begins with replacement of the filter media. Filter media has an average life expectancy of about 15 years. Filter media loses angularity and physically changes in size ever so slightly during each rinse cycle and backwash cycle. Changes in these characteristics create changes in filter flow and the ability of the media to retain floc and particulate matter.

The renovation project will also address the needs of rust removal, painting, and valve integrity. Although some of the valve actuators were recently replaced, none of the valves themselves have been. Many of these valves have leaks internal to the filtration process that directly affect filter performance, water quality, and efficiency. This project assumes that all the valves need to be rebuilt or replaced. Lastly, this project will address the need to replace the turbidity meters that determine when an operator needs to initiate a rinse or backwash cycle.

During the media replacement, all mechanical components will be inspected for operational performance. It is anticipated that the repair and/or replacement of air scouring equipment, filter screens, and equipment leaks will be performed at the same time. Attachment 1 lists the major components that are expected to be replaced during the project.

### **Fiscal Considerations**

The current Budget does not include this project. If approved by your Board \$200,000 will be transferred from reserves to the FY 2021/22 capital budget.

### **Results**

Correct filtration and organics removal is an essential component in achieving the successful control of DBP's in our distribution system. New media with the proper percentages of media gradations and angularity will dramatically improve filtration performance.

### MEMORANDUM

**TO:** Board of Directors

**FROM:** Scott Duffield, General Manager

**DATE:** September 16, 2021

**SUBJECT:** Request to consider approval of maintenance of the District parking lot, and the Heritage Village Seniors parking lot, at an estimated cost of \$20,000 and authorize a corresponding budget adjustment from reserves.

#### **Recommendation**

It is recommended that the Board of Directors consider approval of maintenance of the District parking lot, and the Heritage Village Seniors parking lot, at an estimated cost of \$20,000 and authorize a corresponding budget adjustment from reserves.

#### **Background**

At the August meeting your Board directed staff to place this item on a future agenda.

#### **Discussion**

The District parking lot has been in need of maintenance including crack sealing, seal coating, and striping. The Heritage Village Seniors, Inc. (HVS) parking lot needs the same.

The Manager exchanged letters with the HVS regarding this subject. The Manager's strict interpretation of the Lease Agreement between the District and the HVS is that the HVS is responsible for all maintenance of the Property as defined in the Lease Agreement, including its grounds, adjacent land, and parking lot. The Lease Agreement is attached, with attention to Section 6, 8, and Exhibit A.

#### **Fiscal Considerations**

The cost for this work is not in the current Budget and would require a transfer from reserves. Staff has not received final quotes from contractors yet. The estimated cost is based on a single estimate from November 2019 which was \$8,100 for the District portion, and \$6,400 for the HVS portion. The District is required to pay prevailing wage for all work performed by contractors.

## **Results**

Your Board should consider managing and paying for maintenance of both parking lots and any presidence that could be setting.

1.3. Tenant desires to lease the Property in order to construct and operate a senior citizens' center for the use and benefit of senior citizens and others in the Heritage Ranch area.

1.4. By approving this Lease Agreement, the District Board of Directors finds that the lease of the Property to Tenant on the terms of this Agreement shall further the District's authorized purposes of providing for public recreation, including the construction, use and operation of a recreational building for use by Heritage Ranch community senior citizens and other residents and organizations.

**2. Grant of Lease; Rent.** Subject to the terms and conditions set forth below, District hereby leases to Tenant, and Tenant hereby leases from District, the Property. Tenant shall pay to District rent in the sum of \$1 per year commencing on and due and payable prior to the date first set forth above, and prior to the first day of each subsequent year while this lease remains in effect. Rent shall be paid at the address of District set forth.

**3. Term.** The term of this lease shall commence on the date first set forth above and shall remain in effect for 50 years unless terminated earlier (a) by mutual consent of the parties, (b) pursuant to section 4, 13 or 15, or (c) as provided by law. The lease may be extended by mutual agreement.

#### **4. Property Improvement.**

4.1. Tenant, at its sole cost and expense, may design, construct and install on the Property the senior center facility and related improvements and appurtenances generally described on Exhibit B, attached hereto and incorporated herein (collectively the "Building"). Prior to commencement of construction of the Building, Tenant shall submit final construction plans and drawings to District for its review and approval, which approval shall not be unreasonably withheld. Construction shall not commence until after District approval of the plans and drawings. Tenant's contractor or contractors also shall be subject to prior District approval, which approval shall not be unreasonably withheld.

4.2. All construction work on the Property shall comply with all applicable federal, state, and local laws, regulations and codes (including, but not limited to, the uniform codes adopted by the State of California and County of San Luis Obispo), and shall be performed in a good and workmanlike manner. The Building shall be designed and constructed in accordance with the Americans with Disabilities Act and regulation provisions applicable to public accommodations and facilities. Prior to commencement of construction of the Building, Tenant shall apply for and obtain all required County land use approvals and building permit, and all other required federal, state or local permits, approvals and entitlements. Tenant shall keep the Property free and clear from any and all liens, stop notices, claims and demands for work performed, materials furnished or operations conducted at the Property.

4.3. If Tenant has not completed construction of the Building by January 1, 1998 (as evidenced by issuance of a certificate of occupancy by the county building official), then this Agreement shall terminate effective that date, and all right, title and interest in and to the Property shall revert to District. This deadline may be extended by the District in writing upon good cause shown by Tenant. Any such extension shall not exceed the section 3 lease term.

#### **5. Use of Property.**

5.1. During the term of this lease, the Property and Building shall be used by Tenant primarily as a senior citizens recreational center and library for members of the Heritage Village Seniors and other residents in the Heritage Ranch area, and related and incidental purposes. Tenant agrees to be responsible for the faithful performance of the terms of this Agreement by its employees, contractors, agents, members and guests.

5.2. In recognition of District's lease of the Property to Tenant for nominal rent, Tenant agrees to:

5.2.1. Permit District to use the Building, free of charge, for periodic District meetings, functions and activities that are appropriate for the Building, so long as District's use of the Building does not interfere with Tenant's planned functions and activities. District and Tenant shall cooperate in scheduling District uses, as such needs arise.

5.2.2. Permit Heritage Ranch area groups and organizations to rent the Building for periodic community meetings, functions and activities that are appropriate for the Building, so long as such use of the Building does not interfere with Tenant's planned functions and activities. The rental amount shall be fair and reasonable, and commensurate with the fair rental amount charged for similar buildings in San Luis Obispo County. Tenant's rental of the building shall be on a non-discriminatory basis. Interested groups and organizations and Tenant shall cooperate in scheduling such uses, as the needs arise.

5.2.3. Make the library available free of charge for use by Heritage Ranch area residents at reasonable hours to be determined by Tenant.

5.3. Tenant may adopt rules and regulations concerning the use of the Building by others pursuant to section 5.2. ## Manager Report For the Month of September 2021

In addition to normal operations and administrative duties, below are updates for several areas of work:

### Administration

- The Manager attended bi-weekly Special District Managers meetings.
- Section 2013 of America's Water Infrastructure Act of 2018 (AWIA) requires community water systems that serve more than 3,300 people to perform a Risk and Resilience Assessment (RRA) and complete and submit an Emergency Response Plan (ERP). The RRA was due and submitted by June 30, 2021. The District is required to develop or update an ERP and certify completion to the U.S. EPA no later than December 31, 2021. The Rural Community Assistance Corporation (RCAC) contacted the Manager about assistance needed in preparing the ERP

Founded in 1978, RCAC is a 501(c)(3) nonprofit organization that provides training, technical and financial resources, and advocacy so rural communities can achieve their goals and visions. RCAC's work includes environmental infrastructure (water, wastewater, and solid waste facilities), affordable housing development, economic and leadership development, and community development finance.

Their programs provide assistance to small municipal and nonprofit water systems, wastewater systems, and solid waste management programs in 11 western states: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Nevada, New Mexico, Oregon, Utah and Washington. RCAC is one of six regional agencies that make up the Rural Community Assistance Partnership network that together serve the entire country. All six organizations are "on the ground" working directly with rural communities and have a common experience and knowledge base (primarily with environmental infrastructure).

Since inception, their dedicated staff and active Board, coupled with their key values: leadership, collaboration, commitment, quality, and integrity, have helped effect positive change in rural communities across the West.

RCAC updated the ERP at no direct cost to the District.

The ERP outlines possible options and resources that could be used to prepare for an incident that threatens life, property, or the environment; allows the district

to submit the required certification statement to EPA; and can be incorporated into district training.

### Operations

- Prepared and submitted the Water Treatment Plant Monthly Report.
- Submitted the Wastewater Treatment Plant Self-Monitoring Report.
- Prepared and submitted the Disinfection Byproduct Monthly Report.

The timeframe is that nominations are due no later than September 15th which will allow each of the Board of Directors of the Districts the opportunity to meet and discuss this matter. If there is more than one nomination, then voting will take place with ballots due no later than October 31st.

### Reservoir Status

- As reported by Monterey County Water Resources Agency (MCWRA), as of August 9, 2021, the reservoir was at approximately 708.55 feet in elevation, 13% of capacity, or 47,780-acre feet of storage. MCWRA water releases were shown as 67 cfs.
- Stage II water conservation is in effect as approved by your Board last month and includes outdoor watering restrictions with the goal of 15% conservation.
